

Optical Interconnect Components

Optical communication components

Mating pins, guide pins, connector molds and other products using high precision grinding and EDM

Optical communication components dispensable to high-speed communication. High-precision mold-related components and jigs and tools products will support stable communication environment.

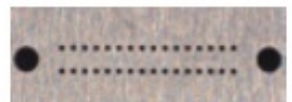

■ Molded components for optical fiber Connectors

Hole diameter = $\varnothing 0.125\text{mm}$
Hole pitch = 0.25mm
Hole tolerance = $\pm 0.2\ \mu\text{m}$
Hole pitch tolerance = $0.5\ \mu\text{m}$

Cross-section
