

# Semiconductor, Light Electrical Device Related Components

## Various taper pins, nozzles, and probes

**Tip diameter up to about 0.02 mm available: Various materials available including carbide, zirconia, and SUS**

Mold components and jigs and tools products supporting semiconductor manufacturing

### ■ Inspection probes

Example:  
Shaft diameter =  $\varnothing$  0.7mm  
Overall length = 15mm  
Tip =  $\varnothing$  0.015mm
